1: Anatomy TV

Anatomy TV is an interactive resource featuring 3D models as well as text, slides and video clips. Anatomy TV can be used to:

- find information in a more interesting and interactive way than through books
- aid learning by viewing interactive images and watching videos and presentations
- find images for use in coursework and presentations
- test your knowledge by taking interactive quizzes.

Anatomy TV can be accessed via the Library Guide, CityLibrary Search or Databases A-Z – log-in with your City username and password.

- How could you use Anatomy TV for your assignments, presentations or coursework?

2: Box of Broadcasts (BoB)

Stream TV and radio from an archive of over 1 million programmes going back 10 years. Record new programmes and create playlists to share.

To access BoB:

- On the BoB homepage select the blue Sign-In button
- Search for City, University of London
• Log-in using your City username and password (you will be asked to create an account).

➢ What programmes might be useful for you to watch or listen to?

3: Cite Them Right

Cite Them Right provides guidance on citing and referencing, the reasons why it is important, and practical examples to help you learn how to do it effectively.

You can search for how to reference particular types of material, like books, journal articles and websites – and how to construct a list of references at the end of your assignment.

• Log-in with your City username and password.

➢ Find how to reference a book or journal article: what referencing style is the default?
4: Elsevier Clinical Skills

Developing outstanding clinical skills is a crucial aim for all nurses and healthcare professionals and there are some great resources available to help with this process including Elsevier Clinical Skills.

To use Elsevier Clinical Skills you need to be registered:

- Check your City email address
- You should have received an email inviting you to use Elsevier Clinical Skills - check your Junk folder or Clutter
- Click on the link in your email
- Log-in to Elsevier Clinical Skills using the Username and Password provided
- You will be prompted to change your password (do not use your City password).

➢ Once you have logged-in, see if you can find guidance on ‘Hand Washing’.
5: Library Essentials

Library Essentials provides you with all the key information you need to get started using Library services and resources.

- Explore some of the guides.
- Search for ‘Developing practical nursing skills’ using CityLibrary Search.
- Can you find the video on how to book a Group Study Room?

6: Library Guides

Our Library Guides are designed to help you discover information, resources and services in support of your studies.

If you select School of Health Sciences you’ll discover a collection of guides specifically put together for your School, as well as some information directly relevant to your individual subject area.

In the Library Services section you’ll find information on areas such as employability and help for international students.

If you visit the Help with... section you’ll find guidance of using specific resources, such as reference management tools and social media.

- Visit CityLibrary News and catch up on the latest stories from the Library.
