Exporting references from Ovid Online

From your list of results, tick the references you wish to export and click on the Export link:

An Export Citation List box will appear.

From here you need to select RefWorks from the drop down menu and select which fields you wish to be displayed in your reference.

Finally click on the Export Citation(s) button.
A blank page will appear with a link which you need to click on. This will complete the export of your references to RefWorks.
